SonicWALL Security Services

Product		Part Numbers	Description
Comprehensive Gateway Security Suite		For TZ 150 Series (1 Year) 01-SSC-5846 For TZ 170/190 Series Unrestricted Node (1 Year) 01-SSC-5844 For TZ 170/190 Series 10 and 25 Node (1 Year) 01-SSC-5845 For PRO 1260 (1 Year) 01-SSC-5849 For PRO 2040 (2 Years) 01-SSC-6819 For PRO 3060/4060 (2 Years) 01-SSC-6821 For PRO 3060/4060 (3 Years) 01-SSC-6822 For PRO 4100 (3 Years) 01-SSC-6824 For PRO 5060 (3 Years) 01-SSC-6826	The SonicWALL Comprehensive Gateway Security Suite (CGSS) combines security, productivity, reporting and support in a single, low-cost solution. Available on all SonicWALL TZ and PRO Series appliances, it is the perfect solution for turning your customers' SonicWALLs into total security and productivity platforms. The Comprehensive Gateway Security Suite is available in one, two and three-year subscriptions that include the following: <ul style="list-style-type: none"> ▪ Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service ▪ Content Filtering Service Standard Edition (TZ Series) or Premium Edition (PRO Series) ▪ ViewPoint Reporting Software ▪ Dynamic Support 8x5
Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service		For TZ 150 Series (1 Year) 01-SSC-5771 For TZ 170/190 Series Unrestricted Node (1 Year) 01-SSC-5751 For TZ 170/190 Series 10 and 25 Node (1 Year) 01-SSC-5752 For PRO 1260 (1 Year) 01-SSC-5770 For PRO 2040 (1 Year) 01-SSC-5757 For PRO 3060 (1 Year) 01-SSC-5758 For PRO 4060 (1 Year) 01-SSC-5759 For PRO 4100 (1 Year) 01-SSC-5761	Available on SonicWALL TZ and PRO Series appliances, SonicWALL Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service integrates gateway anti-virus, anti-spyware and intrusion prevention to deliver intelligent, real-time network security protection against a comprehensive array of dynamic threats including viruses, spyware, worms, Trojans and software vulnerabilities such as buffer overflows, as well as peer-to-peer and instant messenger applications, backdoor exploits, and other malicious code. <i>Note: PRO 5060 and PRO 4100 ship with one year of Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service included.</i>
Network Anti-Virus <i>plus</i> AntiSpyware		5-user License (1 Year) 01-SSC-2743 10-user License (1 Year) 01-SSC-2740 25-user License (1 Year) 01-SSC-2745 50-user License (1 Year) 01-SSC-2741 100-user License (1 Year) 01-SSC-2742 50-user License (2 Years) 01-SSC-2746 100-user License (2 Years) 01-SSC-2747	SonicWALL Network Anti-Virus <i>plus</i> Anti-Spyware combines SonicWALL's patent-pending Network Anti-Virus and McAfee's award-winning NetShield for Windows anti-virus and anti-spyware. Combining advanced virus and spyware scanning technology with unmatched management capabilities, it provides: <ul style="list-style-type: none"> ▪ Comprehensive virus and spyware protection using a single integrated client ▪ Automated enforcement of virus and spyware protection policies ▪ Automated deployments of anti-virus and anti-spyware definition and software updates ▪ Full featured e-mail attachment filtering
Content Filtering Service		CFS Premium Business Edition For TZ 150/170/190 Series (1 Year) 01-SSC-5650 For PRO 1260/2040/3060/4060 (1 Year) 01-SSC-5652 For PRO 4100 (1 Year) 01-SSC-5653 For PRO 5060 (1 Year) 01-SSC-5654	SonicWALL Content Filtering Service Premium Edition enhances protection and productivity for businesses and schools by employing an innovative rating architecture utilizing a dynamic database of URLs, IPs and domains to block over 50 categories of objectionable Web content. An easy-to-use management interface provides network administrators with greater control to transparently enforce acceptable use policies.
Global Security Client		5-user License (1 Year) 01-SSC-5250 10-user License (1 Year) 01-SSC-5251 25-user License (1 Year) 01-SSC-5252 100-user License (1 Year) 01-SSC-5253 1,000-user License (1 Year) 01-SSC-5254	The SonicWALL Global Security Client combines gateway enforcement, central management, configuration flexibility and software deployment to deliver comprehensive desktop security to mobile workers and corporate networks. Central policy configuration and distribution at the gateway greatly improves employee productivity and network efficiency while preventing the use of inappropriate and unproductive applications.
ViewPoint		For TZ 150/170/190 Series 01-SSC-2901 For PRO 1260/2040/3060/4060/4100/5060 01-SSC-2902	SonicWALL ViewPoint reporting software gives administrators instant insight into network security status through easy-to-understand real-time and historical reports on a comprehensive set of monitored functions. ViewPoint helps organizations recognize suspicious activity and enhance employee productivity by providing summaries of network attacks and reports on user behavior that identify time-wasting and bandwidth-intensive activities.
Global Management System		10-node License 01-SSC-3363 25-node License 01-SSC-3311	SonicWALL GMS provides small organizations, enterprises and service providers with flexible, powerful and intuitive tools to centralize security policy management for several to thousands of remote SonicWALL security appliances, VPN, and security services such as Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention, and Content Filtering. SonicWALL GMS scales with growing networks and offers centralized reporting and monitoring.
Dynamic Support Services		1-Year contracts SKUs by product 2-Year contracts SKUs by product 3-Year contracts SKUs by product Two- and three-years contracts available on TZ 150/TZ 170/ TZ 190/PRO Series, SSL-VPN, CDP and CSM only.	For customers who need continued protection through ongoing firmware updates and advanced technical support, SonicWALL Dynamic Support Services are available during normal business hours, or 24X7, depending on customer needs. These services include: <ul style="list-style-type: none"> ▪ Annual subscription to software and firmware updates and upgrades ▪ Access to telephone and Web-based support for installation, configuration and troubleshooting help ▪ Advance exchange hardware replacement in the event of failure ▪ Annual subscription to SonicWALL Service Bulletins and access to electronic support tools

Wireless Solution Enablers

SonicWALL Security Solutions

Product	SonicPoint and SonicPoint G			Long Range Dual Band Wireless Card
Part Numbers	01-SSC-5522 (SonicPoint) 01-SSC-5536 (SonicPoint G)	01-SSC-5516 (SonicPoint 4-pack) 01-SSC-5512 (SonicPoint G 4-pack)	01-SSC-5519 (SonicPoint 8-pack) 01-SSC-5533 (SonicPoint G 8-pack)	01-SSC-5515
Market Positioning and Specific Features	<p>Available in IEEE 802.11a/b/g and 802.11b/g options, SonicPoints are dependent access points that provide secure wireless LAN connectivity to users on the network. Includes:</p> <ul style="list-style-type: none"> • Automatic provisioning from TZ 170 or PRO Series Appliance* • Support for multiple security options (WiFiSec, 802.11i, WPA, WEP) • Support for up to 8 distinct SSIDs with distinct security policies using Virtual Access Points (VAP)** • IEEE 802.3af Power Over Ethernet receive capability • Detachable antennas (SonicPoint G only) <p>*SonicOS Enhanced 2.5 or greater (SonicPoint), SonicOS Enhanced 3.1 or greater (SonicPoint G) **Only available on PRO 2040/ 3060/4060/4100/5060 running SonicOS Enhanced 3.5 or greater</p>			<p>The SonicWALL Long Range Dual Band Wireless Card is a tri-mode, dual band, IEEE 802.11a/b/g-compliant CardBus PC card that complements the high-power wireless capability of SonicWALL's secure wireless solutions. Includes:</p> <ul style="list-style-type: none"> • Superior Transmit/Receive power • Up to 108 Mbps 802.11a and 802.11g Data Rates • IEEE 802.11d Multi-country Roaming Support

SSL-VPN

Product	SSL-VPN 4000/2000	SSL-VPN 200
Part Numbers	01-SSC-5960 (SSL-VPN 4000) 01-SSC-5952 (SSL-VPN 2000)	01-SSC-5946
Market Positioning and Specific Features	<p>The SonicWALL SSL-VPN 4000 and 2000 provide mid-size enterprises (up to 1,000 employees) with a simple, affordable secure and clientless remote network and application access solution for remote and mobile employees. Users can easily and securely access e-mail, files, intranets, remote desktops; Citrix (ICA) based applications and other resources on the corporate LAN from any location through a standard Web browser. Includes:</p> <ul style="list-style-type: none"> • Unrestricted concurrent user tunnels; 100 recommended under common usage scenarios • Seamless integration behind virtually any firewall • NetExtender technology which provides advanced capabilities • Personalized portal experience with context-sensitive help • One-time password protection • Citrix (ICA) support 	<p>The SonicWALL SSL-VPN 200 provides small businesses (up to 50 employees) with a simple, clientless, cost effective alternative to IPSec remote access VPN and remote access software. Using a standard web browser, users can easily and securely access e-mail, files, intranets, remote desktops and other resources on the corporate LAN from any location. Includes:</p> <ul style="list-style-type: none"> • Unrestricted concurrent tunnels; optimized for 10 concurrent users • Seamless integration behind virtually any firewall • NetExtender technology provides advanced capabilities • Personalized portal experience • Clientless connectivity – no pre-installed or "fat" VPN client

SonicWALL Security Solutions

CDP Series

Product	CDP 1440i	CDP 2440i	CDP 3440i	CDP 4440i	CDP Offsite Service
Part Numbers	01-SSC-6300	01-SSC-6301	01-SSC-6302	01-SSC-6303	Available in 1-Yr Subscription
Market Positioning and Specific Features	<p>The CDP 1440i is a disk-based backup and recovery appliance that offers real-time end-to-end data protection for small businesses. It includes unique features such as instant data recovery and central administration. The CDP 1440i supports servers, PCs and laptops of small business networks and up to 15 users, 192GB compressed capacity and AES 256-bit encryption on offsite data security.</p>	<p>The CDP 2440i is ideal for small businesses and remote offices. Featuring a 300 GB compressed capacity along with standard throughput and AES 256-bit encryption for offsite data security, it provides continuous real-time data protection for servers, laptops and PCs. Differentiating this solution from many of its competitors is its seamless support of most small business databases and applications such as SQL-Server and Microsoft Exchange without the need to integrate additional software packages.</p>	<p>The CDP 3440i offers enterprise level data backup protection for small-to-medium businesses and remote offices. The high-performance 1U rack-mountable solution is optimized for up to 75 users and unlimited servers. Offering 600 GB compressed capacity with RAID 1 along with accelerated throughput and AES 256-bit encryption for offsite data security, it provides continuous real-time data protection for servers, laptops and PCs using policy-based backup, central administration and open file backup. It supports most small business databases and applications such as Microsoft Exchange, SQL-Server, Quickbooks, PeachTree, Great Plains, etc.</p>	<p>The CDP 4440i is a robust 2U rack-mountable backup and recovery solution for branch offices and mid-size organizations. Offering a 1.2 TB compressed capacity with RAID 5 along with accelerated throughput and AES 256-bit encryption on offsite data security as well as all the features of the CDP 3440i, it provides continuous real-time data protection for unlimited servers, laptops, PCs, databases and business applications. IT Administrators benefit from central management and file-level visibility into every client machine connected to the SonicWALL CDP appliance, enabling enforcement of consistent backup policies and control features available to individual end users.</p>	<p>The CDP Offsite Service provides an offsite backup and recovery solution that stores the data in a secure data center, enabling enterprises to be up and running quickly after a disaster event. All data is securely transmitted and encrypted with an AES 256-bit encryption key. IT Administrators can recover the data through a simple interface in the event the CDP unit at the local level is not viable.</p> <p>5Gb of Yearly Offsite Storage - 01-SSC-6340 10Gb of Yearly Offsite Storage - 01-SSC-6341 15Gb of Yearly Offsite Storage - 01-SSC-6342 20Gb of Yearly Offsite Storage - 01-SSC-6343 25Gb of Yearly Offsite Storage - 01-SSC-6344 30Gb of Yearly Offsite Storage - 01-SSC-6345 40Gb of Yearly Offsite Storage - 01-SSC-6346 50Gb of Yearly Offsite Storage - 01-SSC-6347 75Gb of Yearly Offsite Storage - 01-SSC-6348 100Gb of Yearly Offsite Storage - 01-SSC-6349</p>

Product	Bare Metal Restore/Local Archiving for CDP Series - Server	Bare Metal Restore/Local Archiving for CDP Series - Workstation
Part Numbers	01-SSC-6390	01-SSC-6391
Market Positioning and Specific Features	<p>SonicWALL Bare Metal Recovery/Local Archiving software creates an exact image of an entire server - including the operating system files, programs, databases, and settings, enabling the recovery of an entire system in minutes. Customers can also explore their bare metal archives to recover individual files and folders using Windows' familiar drag-and-drop file copying operation. Moreover, its wizard-driven graphical user interface (GUI) is easy-to-use, making it an ideal application for even novice PC users.</p> <p>Key Features:</p> <ul style="list-style-type: none"> • Instant bare-metal recovery and local archiving • Restoration of individual files and folders from archived images • Easy to use Windows, XP-like wizard interface. • Support for SAN, NAS, RAID, CD/DVD, USB, IEEE1394, SCSI and other backup storage • Support for all operating systems, including: Windows 2003 Server, Windows 2000 Advanced Server, Windows 2000 Server, Windows NT4.0 Server SP6 	<p>SonicWALL Bare Metal Recovery/Local Archiving software creates an exact image of an entire system - including the operating system, applications and all user data, or an individual disk partition, enabling the recovery of an entire system in minutes. Customers can also explore their bare metal archives to recover individual files and folders using Windows' familiar drag-and-drop file copying operation. Market Positioning and Specific Features	Ideal for small and medium-sized businesses, SonicWALL Email Security appliances are easy to install and extremely effective at stopping all e-mail threats at the SMTP gateway. This powerful solution protects organizations against threats including spam, phishing, viruses, Denial-of-Service and Directory Harvest Attacks, and compromised Zombie machines. These appliances also provide robust outbound e-mail management for policy and regulatory compliance. Based on a hardened SonicWALL OS, these plug-and-play appliances install in less than an hour to securely protect your e-mail.	SonicWALL Email Security Software is ideal for small and medium-sized businesses that want to implement a software e-mail security solution on their existing hardware. With all the available features of the SMB appliances, SonicWALL Email Security Software secures organizations from all inbound and outbound e-mail threats through an easy-to-use, Web-based administrative interface.	SonicWALL Email Security 6000 and 8000 offers comprehensive, effective and scalable e-mail security for enterprise environments. Its unique pre-emptive scanning Mail Transfer Agent (MTA) offers breakthrough message analysis and industry-leading message delivery rates. This easy-to-manage solution combines powerful anti-spam, anti-virus and anti-phishing capabilities with outbound e-mail compliance management enabling consolidation of the e-mail security infrastructure, thereby, reducing cost and complexity. By identifying, monitoring and applying policy to confidential information, SonicWALL Email Security 6000 and 8000 appliances enable organizations to take a substantial step towards e-mail compliance.	For enterprises that standardize on specific hardware, have existing monitoring and backup systems, or just want the ultimate in deployment flexibility, SonicWALL Email Security Software provides all the functionality of SonicWALL Email Security 6000 and 8000 Series on a software platform. This e-mail security solution combines the best protection with effortless control and high performance.
