

# Polycom® Instructor™ FS

## Benefits

### **Rich media collaboration tool** –

Combines touch enabled video conferencing and interactive white boarding into a single cost-effective, yet powerful package

### **Makes meetings more productive** –

Simplifies brainstorming, idea communication and development, and note taking

**Easy to use** – Integrating advanced technologies into a single, simple-to-use meeting room collaboration appliance with touch-screen controls

**Fits in anywhere** – Small size, footprint, and weight makes it easy to move and ensures it is the perfect system for all types of locations

## Make group meetings even more productive

How would you like to make your group meetings even more productive than they already are? Now it's easy, with Polycom's Instructor FS collaboration appliance. Rounding out our family of innovative meeting room collaboration appliances, the Polycom Instructor Series integrates the best video conferencing and interactive whiteboard technology available today.

The Instructor FS collaboration appliance combines video conferencing and interactive white boarding into a single cost-effective, yet powerful package. It simplifies brainstorming, idea communication and development, and note taking by integrating these technologies into a single, simple-to-use, meeting room collaboration appliance.

A top-quality, integrated plasma display provides a bright, clear image that can be successfully used in a wide range of room sizes and lighting conditions. Because it has such a small size, footprint, and weight, the Instructor FS collaboration appliance is mobile and can be deployed in a wider range of locations, broadening the use of video conferencing across your organization.

And it's so easy to use—just touch the screen and start collaborating with your colleagues, across the street or around the world. On-screen touch allows control of both videoconferencing and white boarding. Now Meeting Notes or Content can be created, changed, annotated and transmitted along with video over a single network connection

Polycom Instructor FS joins the existing Instructor RP product as the foundation of our family of video conferencing collaboration appliances offering expanded capabilities.

### **Make great things happen with Polycom Instructor FS Collaboration Appliance**

In today's Internet driven world, the ability to conduct real time communication and collaboration has become critical to an organization's survival. As the market leader in voice, video, data and Web solutions, our award-winning conference technology makes it easy for people to interact and maximize productivity—over any network, in just about any environment, anywhere around the globe. That's why more organizations worldwide use and prefer Polycom conferencing solutions. Because when people work together, great things happen. See how you, too, can achieve great things with Polycom Instructor FS collaboration appliance.
